👤 Profile

Product-focused software architect with 9+ years of experience specializing in scalable web applications, fintech solutions, and team leadership. Adept at driving system performance optimizations, implementing modern technologies like generative AI, and fostering agile team collaboration. Thrives in dynamic, high-growth environments to deliver impactful software products.

💼 Work Experience

Numi [🔗](#)

Software Architect

2022 - present

- Led the design of **scalable, high-performance architectures**, reducing load times by **20%**.
- Integrated **PostHog** to track user behavior and optimize user engagement.
- Implemented **event-driven architecture** for improved transaction processing efficiency.

Software Architect (Corvus Robotics)

2022 - 2024

- Transitioned legacy systems to modern full-stack architecture with React, TypeScript, and Prisma, reducing downtime by 20%.
- Collaborated with cross-functional teams to deploy scalable production solutions.

BlockFi

2020 - 2022

Software Architect [🔗](#)

- Managed **five product teams**, delivering fintech tools that improved operational efficiency.
- Designed and optimized **secure, high-performance API infrastructures**, reducing API response times by **40%**.
- Standardized architecture practices, boosting developer productivity
- Strengthened **CI/CD pipelines using GitHub Actions (GHA)**, ensuring faster and more reliable deployments.

Phinx Lab

2019 - 2020

Development Team Lead [🔗](#)

- Led a team of developers in **modular, scalable microservices architecture**.
- Integrated **Datadog** to ensure system reliability.
- Ensured **frontend-backend alignment**, improving API usability and consistency.

Mural

2018 - 2019

Lead Full Stack Engineer [🔗](#)

QuadMinds <i>JavaScript Developer</i>	2016 - 2018
Tekii SRL <i>JavaScript Developer</i>	2015 - 2016
Sistel Argentina <i>JavaScript Developer</i>	2014 - 2015
Globant <i>Java Developer</i>	2013 - 2014

Skills

Programming Languages - *JavaScript, TypeScript, HTML5, CSS (Sass, Less, TailwindCSS)*

Frameworks - *React, Next.js, Node.js, Express, Prisma, Nest.js*

Security & Performance - *API Security, JWT, OAuth, Scalable System Architecture, Encryption Strategies*

Cloud & DevOps - *GitHub Actions, Vercel, CI/CD Pipelines*

Data & Analytics - *Google Analytics, Segment, PostHog*

Observability & Monitoring - *Datadog, LogRocket, Honeycomb*

Database - *MongoDB, PostgreSQL, Redis*

Tools - *Jest, Mocha, Webpack, Vite, Gulp, Git*

Languages

Spanish - Native • **English** - Fluent • **Italian** - Basic • **Portuguese** - Basic

Achievements

- Delivered scalable solutions to clients in fintech, logistics, and robotics industries.
- Successfully led multi-disciplinary teams, mentoring junior developers and fostering career growth.
- Regularly improved system performance through innovative design and architecture decisions.

Projects

Garage Events Platform	2024
<ul style="list-style-type: none">- Developed a booking platform for cultural events, integrating user authentication and event management features with Next.js and Supabase.- Implemented user analytics with Google Analytics and PostHog, improving engagement insights.
